

The CVO™ Road Glide® Ultra, a super-premium touring motorcycle, offers its rider and passenger exceptional style, comfort and performance. The aerodynamic, frame-mounted fairing offers a lighter steering feel than a fork-mounted fairing, and incorporates dual headlamps and a cockpit style instrument display. Production will be limited to approximately 3,000 units assembled at the Harley-Davidson Vehicle Operations facility in York, Pa. The CVO Road Glide Ultra is built on the innovative Harley-Davidson® Touring chassis, based on a single-spar, rigid backbone frame and a stout swingarm developed to withstand the demands of long-haul touring riders and today's more-powerful engines.
